## Benefits of PWA Installation

### Performance Benefits:

-  **Faster loading** - Resources cached locally
-  **Offline access** - Work without internet connection
-  **Native feel** - Full-screen, app-like experience
-  **Push notifications** - Stay updated with important alerts

### User Experience:

-  **Home screen access** - Launch directly from device
  -  **No browser clutter** - Clean, focused interface
  -  **Auto-updates** - Always get the latest version
  -  **Enhanced security** - HTTPS-only, secure connection
- 

## Troubleshooting

### Installation Button Not Appearing?

#### Possible Solutions:

1. **Clear browser cache** and reload the page
2. **Check browser compatibility** (Chrome 67+, Safari 11.1+, Firefox 79+)
3. **Ensure HTTPS connection** - PWAs require secure connections
4. **Wait a moment** - Some browsers delay showing the install prompt
5. **Try incognito/private mode** to rule out extension conflicts

### App Not Working Properly?

#### Try These Steps:

1. **Update your browser** to the latest version
2. **Clear app data:**
  - o **Android:** Settings → Apps → EITS Services → Storage → Clear Data
  - o **iOS:** Delete and reinstall the app
  - o **Desktop:** Browser settings → Site data → Clear for EITS domain
3. **Check internet connection** for initial sync
4. **Restart the app** completely

## **Uninstalling the PWA:**

### **Mobile:**

- **iOS:** Long-press app icon → "Remove App" → "Delete App"
- **Android:** Long-press app icon → "Uninstall" or drag to trash

### **Desktop:**

- **Windows:** Right-click app → "Uninstall"
  - **macOS:** Drag from Dock to Trash
  - **Linux:** Remove from applications menu
